We first heard about the ultimate wedding dj at a wedding fayre. He was so friendly and have us all details we needed without been over pushy! All contact was easy via email and responded too quickly! The options to choose which songs you wanted playing and didn't want playing was a great addition for me and my husband. On the day of our wedding we didn't even hear him come in the room to set up, he was there and straight into exactly what music we wanted. All songs were played on time e.g. cake cutting/ bouquet toss. All guests were up dancing and loved the range of music played. Truly amazing service which helped our wedding go perfect!

Absolutely perfect from start to finish: they were great value for money, let us choose the playlist, tailored any requests we had and were really friendly and professional on the day. Couldn't fault them! They made the music one less thing for me to stress about, everything was so seamless.

They made our reception perfect. We had a singer for our first dance and they were so helpful and accommodating.

My husband had bought us and his groomsmen lightsabers for jokey wedding presents, before the evening guests arrived we decided to have a battle. The dj was setting up and immediately put the Star Wars theme music on, even though it wasn't previously requested and his contracted hours hadn't started yet. It was very memorable and brilliantly fun!

The Ultimate Wedding DJ were just that. From meeting them at the wedding fair, to the day itself, they were professional and approachable. All communication was simple and dealt with quickly and effectively, with any issues sorted as soon as possible. They also made suggestions to make our evening run smoothly, which was invaluable advice. They certainly know weddings and what works!

Reasonable price, friendly and helpful service. They were professional and we could choose the music we did or more importantly did not want to hear (no ABBA please!!)

Brilliant! Kept the night alive after the band (and in between everything else going on!) watched what made everyone dance and tailored the set to that! The dance floor was never not full!! Waiting for our next big event so we can hire them again!! Just brill!

Our wedding was actually a surprise. We sold it as a 30th birthday party for my now husband but got married in front of everyone instead. The DJ was amazing. He made this so easy and helped keep our secret his timing and discretion were impeccable. I would not hesitate to recommend this company. They made what could have been a disaster into a huge success

"They were extremely easy to deal with and last minute changes etc were not a problem. We had an 11 song mash up for our first dance which they handled brilliantly. There website with on-line song choices was easy to use."
